COURSE OVERVIEW

The vision of this course is to increase awareness of the expanding and integrating concept of addiction and its interplay with physical and mental health, in both acute and long term time frames. It will be of interest to a variety of professionals in healthcare, education and research (physicians, first responder, emergency and urgent care staff, psychologists, researchers, social workers, nurses, pharmacists, mental health workers, rehabilitation workers, counsellors, and educators).

COURSE OBJECTIVES

- To develop a broader understanding of addiction and mental health
- To learn about new research in addiction and mental health
- To understand the bio-psycho-social-spiritual aspects of addiction
- To identify, assess, and treat people with substance and behavioural addiction
- To promote collaboration and discussion among all individuals with an interest in addiction
- To learn about resources available for follow-up and support for people with addiction
